

## HOSTED EXCHANGE

Optimum communication and collaboration  
from Exchange experts.

Tailor-made solution for large and small companies: Use the full functionality of Microsoft Exchange, freely scalable with no administrative effort.

### TEAMWORK MADE EASY

Schedule appointments, assign tasks, see the appointments of colleagues – all of this simplifies teamwork and reduces administrative and coordination effort. Focus on your core tasks instead of wasting time with organisational chores.

### AUTOMATIC SYNCHRONISATION

Every new e-mail, task or appointment is synchronised automatically. Our Hosted Exchange solution makes sure that important information does not get lost and is available on all devices precisely when it is needed.

### AS UNIQUE AS YOUR COMPANY

Our Hosted Exchange service is tailored to your requirements: From storage space requirements to Outlook licenses to expanded functionality, you receive a solution tailored to the needs of your company. A control panel enables easy account administration and provides all common Exchange functions in case of subsequent changes.

### EASY MIGRATION & COST REDUCTION

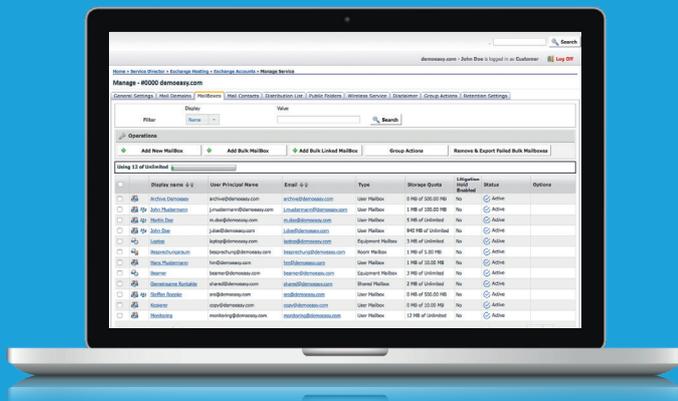

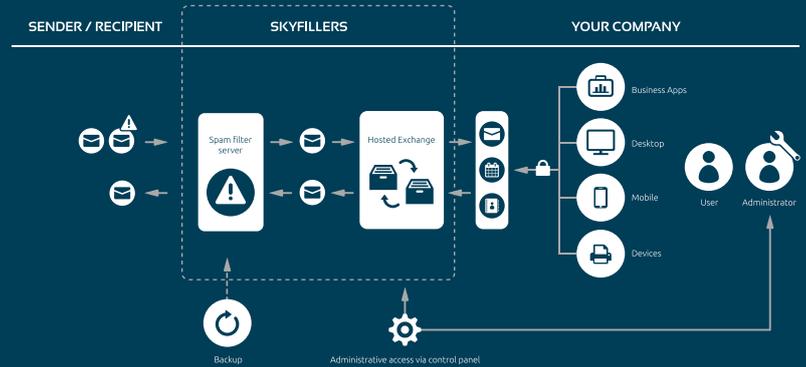

Your existing Exchange accounts are easy to migrate in a timely manner without disrupting your work. The bottom-line cost savings will excite you: In contrast to an in-house solution, the setup and maintenance of your own technology infrastructure in the company is eliminated.

#### Our cloud benefits at a glance

- + Freely scalable at any time
- + Legal certainty thanks to data centres based in Germany
- + Professional and secure infrastructure with multiple redundant server and storage solutions
- + Control panel for easy account setup and administration as well as all common Exchange functions
- + Support and advice from an expert team with in-depth Exchange know-how

## How Skyfillers' Hosted Exchange solution works

Your mailbox data is stored on our secure servers. You can access your e-mails, calendar, contacts and more from anywhere, meaning you can work from any location. Administrators can have full personal control over their exchange hosting via our control panel.

## The control panel

In the control panel you can set-up mailboxes, gain an overview of all users and individually customise various settings.

### Hosted Exchange features

Individually adaptable and scalable at any time

Administration and software updates by Skyfillers

Control panel for the management of mailboxes, rights, distribution lists, forwarding and more

Redundant storage on at least two servers – guaranteed retention of daily backups for 14 days

Deleted elements are retained for 90 days and can be restored directly and free of charge via Outlook or Outlook web app

Support for all common mobile devices (smartphones, tablets – iOS, Windows Phone, Android, BlackBerry and more)

External applications can be integrated via Exchange Web Services (EWS) – for instance CRM, ERP systems

Maximum e-mail size 250 MB (100 MB on Mac)

Optional e-mail made in Germany (EmiG)

### Benefits

Skyfillers Hosted Exchange adapts to your company.

No administrative effort with full Exchange functionality. Updates and version upgrades are installed after extensive testing.

Full control over your own Exchange structure.

Comprehensive backups make data loss virtually impossible.

Even elements deleted accidentally can be restored without problems.

Your employees also have mobile access to everything they need.

Skyfillers Hosted Exchange is individually adapted to your requirements.

Sending and receiving e-mails with large attachments is no problem.

EmiG can be implemented for added security.
